

Heritage Royalty

JOB POSTING | CORPORATE PLANNING AND BUSINESS DEVELOPMENT ENGINEERING INTERNSHIP

Heritage Royalty is seeking an engineering internship student to work collaboratively with our Corporate Planning and Business Development team. As the successful candidate, you will have the opportunity to work on meaningful projects within the company, developing your organizational and technical skills under the mentorship of a seasoned multi-disciplinary team. You will be expected to work with a high degree of accountability within a high-performance organization and think like an owner of the business.

Position Details:

Job Title:	Corporate Planning and Business Development Engineering Intern
Reporting to:	VP, Business Development and Corporate Planning
Start Date:	May 1, 2020
Term:	Full-time, eight or twelve month contract

About the Company:

Heritage Royalty is one of Canada's largest fee title acreage owners with approximately 4.8 million acres in Alberta, Saskatchewan and Manitoba. In addition, we hold fee title acreage in the Permian basin in Texas, USA and gross overriding royalties in Alberta, Saskatchewan and the Marcellus basin in Pennsylvania, USA. Heritage Royalty also manages a non-operated working interest in the Weyburn Unit.

Your Responsibilities:

Your key responsibilities will surround supporting the Heritage Royalty's ambitious strategy to build a peer leading portfolio of oil and natural gas royalty assets across and beyond North America, including:

- Supporting Asset Portfolio Analysis and Annual Reserves Process
- Working with Business Development team to build a database to catalog key asset analysis for North American and international opportunities (i.e. resource characteristics, key development plan inputs and outputs)
- Working with Engineering and Planning team to develop realized pricing models
- Working with Business Development, Finance and Land teams to develop and implement ESG criteria into portfolio and acquisition analysis

Your Qualifications:

- Enrolled in an accredited post-secondary engineering program for the 2020- 2021 academic year.
- Data-driven and detail-oriented with strong analytical and problem-solving skills

- Exceptional computer skills, with proficiency in Microsoft Office applications, especially excel, being required
- Previous experience in the oil and gas industry considered an asset

How to Apply:

Apply with resume and cover letter by email to general.inquiries@heritageroyalty.ca. Please put “Corporate Planning & BD Engineering Internship” in your subject line. Only qualified candidates of interest will be contacted.
